

RAIL TRAINING COURSES

The ISS Labour Training Division can deliver a wide range of courses from its purpose built Training Centre in Salford. This state-of-the-art facility offers excellent facilities including comfortable classroom settings and a full indoor Overhead Line set-up, unique in the North of England – no need for the weather to get in the way.

Our expert trainers are among the very most experienced in the industry, fully certified to deliver the training, assessment and certifications that your delegates require. With a detailed knowledge of the rigorous compliance demands of this industry, we are committed to supporting you in achieving total adherence to current standards.

We can deliver training in areas such as Personal Track Safety, Auxiliary Operating Duties, Safe System of Work, Authorised Person Level B, Nominated Person Level A and Overhead Line Engineering Construction (OLEC 1, 2 & 3), among others. We are proud to be fully certified by NSAR.
