

COLAS RAIL

**ON TRACK
FOR THE FUTURE**

**FREE TO
BE SAFE**

At Colas Rail we are 'Free to be Safe'

The way people think about safety affects how they react and talk about safety. Allowing people to be 'Free to be Safe' enables people to be honest and open about identifying safety issues and gives them the freedom to speak about safety without fear of being chastised or discouraged from doing so.

The more we talk about safety and make it a part of everyday life the more we will develop a culture where safety is truly at the forefront of everything we do.

You have the freedom to:

- NOT DO IT IF IT IS NOT SAFE**
- MANAGE YOUR OWN FATIGUE**
- REPORT ANY UNSAFE ACTS**
- USE THE RIGHT TOOLS**
- ALWAYS FOLLOW THE RULES**

For more information please contact your Line Manager or your local Health & Safety Representative listed below:
