

# Lunarlink™

## Link Lighting

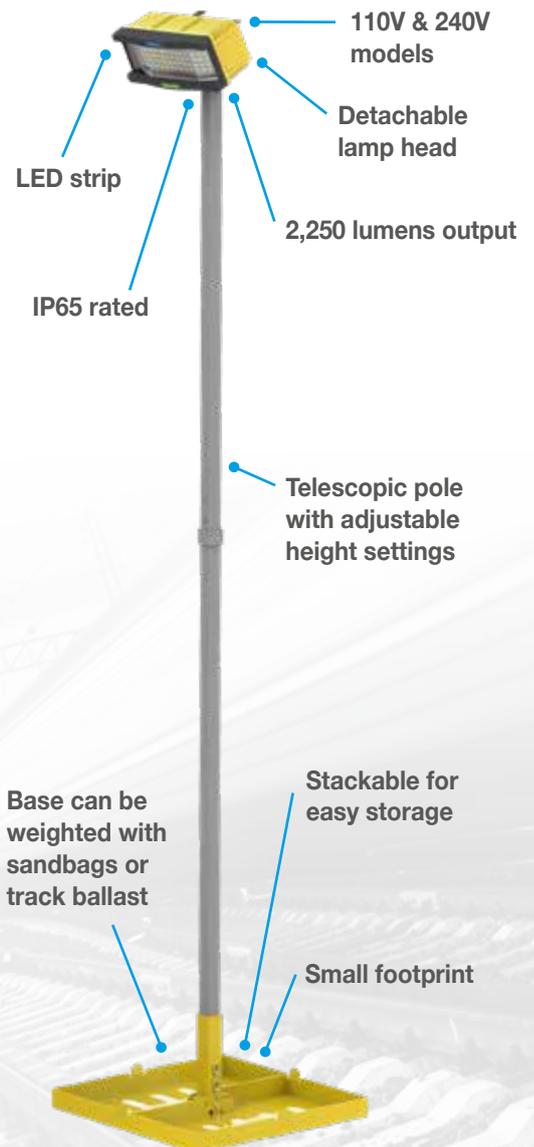

### Overview

We have designed, manufactured and launched our NEW innovative state-of-the-art Lunarlink™ 15 watt LED link-lighting system which provides a cost effective, portable and sustainable lighting solution for the rail, civils, and construction industries.

Up to 90m in length (9 link-lights) can be floodlit at 2250 lumens per light from a single Vitacell® battery power source for 28 hours. The lighting chain will continue to operate should any individual lamps fail.

The Lunarlink™ LED link-lights are gradually replacing existing link-lighting systems and when used alongside our Vitacell® rechargeable battery offers fuel free, silent running and zero carbon emissions which are key drivers within the industry.

Our Lunarlink™ LED link-lights have flicker free light heads, are shock resistant, water and dust proof. They can be mounted using existing industry standard basket, 14m cable and telescopic mast. A sensor option is available for walkways to extend running time and for sensitive neighbourhood areas.

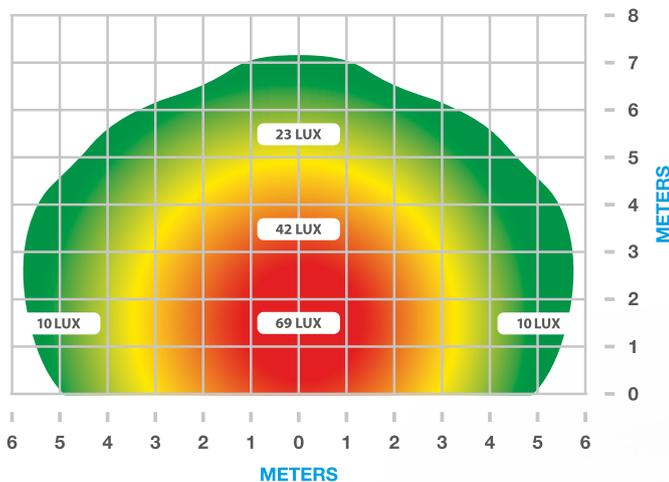

## Key Benefits

- ▶ Ultra bright linkable floodlights
- ▶ Instant illumination
- ▶ Lightweight and stackable parts
- ▶ Highly energy efficient
- ▶ Spare parts readily available
- ▶ Extremely tough and durable casing
- ▶ No warm up or cool down required
- ▶ Designed for rapid site deployment
- ▶ Supports sustainable work practices
- ▶ Directional light with minimal light spill
- ▶ Optional motion sensor available
- ▶ CE approved flicker free light heads

## Specifications

Rated voltage	110 V
Rated wattage	15 W
Ingress protection	IP65
Total lamp lumens	2250 lm
LED lifespan	20,000+ hours
CE compliant	IEC 605598-1:2014 UK CE marked
Lamp CCT	6398 K
Rated temperature	50°C
Luminaire length	28cm
Luminaire width	10.1cm
Luminaire height	11.4cm
Luminaire weight	1.2 Kg
Mast height	1.8m to 2.4m

## Light Plot

## Sustainable Lighting Solution

9 x Lunarlink™ LED link-lights can be powered by a single Vitacell® battery pack for 28 hours of fuel free, silent running and zero carbon emissions.
